

# bunq - Tax Policy

May 2026

To our users,

At bunq, we believe in transparency and having an inside=outside approach to our policies and procedures. We want to be fully transparent with our users and inform them of anything you may want to know. For this reason, we aim to make our policies publicly available, where we (legally) can!

# 1. Purpose

At bunq, we believe in doing things the right way — not just because we have to, but because we want to. That includes how we handle taxes.

This policy explains how we deal with tax matters across our business. It's built around one key principle:

***We pay our fair share. Always.***

Whether it's in the Netherlands, or anywhere else we operate, we follow the rules, avoid aggressive tax strategies, and contribute to the communities we're part of.

The goal of this policy is simple: to lay out how bunq approaches tax matters across all jurisdictions where we operate.

We aim to be:

- **Transparent** — no hidden tactics or risky loopholes;
- **Fair** — paying what's due, where it's due;
- **Efficient** — smart structuring that respects the rules;
- **Sustainable** — always thinking long term.

# 2. Scope of policy

This policy applies to bunq b.v. and bunq holding b.v. as entities supervised by De Nederlandsche Bank (DNB). It also applies to all its subsidiaries and branches as disclosed in the graph below:

### **3. Governance**

At bunq, we treat tax the same way we treat every other important part of our business — with clear ownership, strong oversight, and built-in accountability. Tax responsibilities are shared across three key roles:

#### **The role of the Head of Finance**

The Head of Finance is responsible for the day to day tax compliance. That includes::

- Implementing the tax policy;
- Managing tax compliance;
- Liaising with tax authorities; and
- Keeping accurate and up-to-date documentation.

#### **The role of the Risk and Audit Committee**

The Risk and Audit Committee makes sure we're staying on track by:

- Monitoring our tax risk exposure;
- Ensuring we follow proper governance and compliance practices.

#### **The role of the Managing Board**

The MB has ultimate responsibility for:

- Approving this policy;
- Reviewing tax risk reports as part of bunq's broader risk management framework.

### **4. Tax principles**

We've boiled down our approach to tax into a few key principles that guide all our decisions:

#### **Compliance**

bunq is committed to complying with all applicable tax laws, regulations, and disclosure requirements in the jurisdictions where it operates.

#### **Transparency**

bunq aims to maintain transparent and cooperative relationships with tax authorities, providing accurate and timely information.

#### **Risk Management**

bunq identifies, assesses, and manages tax risks as part of its overall risk management

framework. Tax positions with material risk are escalated to senior management and/or the Board.

bunq has a management system which results in immediate actions if suspicions arise that employees or suppliers are guilty of facilitating tax avoidance or evasion.

### **Transfer Pricing**

bunq adheres to the OECD Transfer Pricing Guidelines, ensuring that intercompany transactions are priced on an arm's length basis.

### **Tax Planning**

bunq engages in responsible tax planning aligned with its commercial business activities. It does not engage in artificial or aggressive tax arrangements intended solely for tax avoidance.

### **Tax rulings and government grants**

bunq does not have any specific tax rulings with the Dutch tax authorities or in any other jurisdiction. bunq receives a government grant related to WBSO (Wet Bevordering Speur- en Ontwikkelwerk).

### **Tax ethics**

bunq does not have subsidiaries, branches or associates in jurisdictions with no or zero corporate tax or in jurisdictions with harmful corporate tax practices, unless they have substance and their profits are generated from local economic activities.

bunq focuses its international enterprise structure and their international transactions in a way that reflects the economic substance of the activities and transactions undertaken, without any steps made primarily to secure a tax advantage.

bunq does not provide financial services to companies in tax havens, unless the company has substance and its profits are generated from local economic activities.

When bunq has activities in jurisdictions with no or zero corporate tax or in jurisdictions with harmful corporate tax practices, it will publish in its Tax Report an explanation of the activities, functions and ultimate shareholder of every subsidiary, branch, joint venture, or affiliate located in jurisdictions with no or zero corporate tax practices or in jurisdictions with harmful corporate tax practices.

bunq does not advise clients to set up international structures with the main purpose to avoid or evade taxes.

bunq does not participate in transactions with international structures of which the main purpose is to avoid or evade taxes.

## 5. Tax matters

bunq deals with a range of taxes across the countries we operate in. Here's how we manage our responsibilities:

### Covered Areas:

- Corporate Income Tax (CIT);
- Value Added Tax (VAT);
- Wage Tax;
- Other tax matters & international tax reporting.

### 5a. Corporate Income Tax

#### 1. Purpose

This section of the tax policy governs how bunq manages its Corporate Income Tax (CIT) obligations in the Netherlands and other jurisdictions where it operates. It ensures compliance with Dutch tax law and supports transparency, integrity, and sustainable tax practices.

#### 2. Scope

This policy applies to all legal entities within bunq b.v. and bunq holding b.v. that are subject to Dutch CIT or equivalent foreign taxes on corporate profits.

#### 3. Policy Principles

| Principle                    | What It Means                                                                                                                                                                                                           |
|------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Full Compliance</b>       | We follow the Dutch Corporate Income Tax Act (Wet op de vennootschapsbelasting 1969) and international treaties.                                                                                                        |
| <b>Timely &amp; Accurate</b> | All CIT returns are submitted correctly and on time, with strong documentation to back them up, especially for intercompany financing and service arrangements.                                                         |
| <b>Fair Transfer Pricing</b> | We adhere to the OECD Transfer Pricing Guidelines. Intra-group transactions are priced at arm's length and documented accordingly, especially for intercompany financing and service arrangements. For the subsidiaries |

|                                                       |                                                                                                                                                                                                          |
|-------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                       | and/or branches that are not revenue generating entities, bunq applies a cost plus approach to ensure honest taxes are paid in the different jurisdictions.                                              |
| <b>Standard Tax Rates</b>                             | We apply the official Dutch rates (19% up to €200k, 25.8% above), subject to changes by the Dutch tax authority.                                                                                         |
| <b>Responsible Use of Tax Losses &amp; Incentives</b> | We responsibly utilize tax losses carried forward or carried back and apply tax incentives (e.g., innovation box) only where justified under the law and aligned with bunq's actual economic activities. |
| <b>No Aggressive Planning</b>                         | We do not engage in artificial arrangements lacking commercial substance or created solely to avoid paying CIT.                                                                                          |

#### 4. Governance and Oversight

- Tax matters are overseen by the CFO and managed by the Head of Finance;
- Material CIT issues are reported to the Risk and Audit Committee of the Supervisory Board;
- External advisors are engaged for complex or cross-border matters.

#### 5. Reporting and Disclosure

- bunq discloses its CIT obligations in its annual financial statements in line with Dutch GAAP or IFRS.
- Country-by-country reporting (CbCR) obligations are fulfilled for the Dutch tax authority, and summaries are disclosed publicly when required.

### 5b. Value Added Tax

#### 1. Purpose

This section of the tax policy governs how bunq manages its Value Added Tax (VAT) obligations. It ensures compliance with the Dutch VAT Act (Wet op de omzetbelasting 1968) and EU VAT Directive, while minimizing VAT risks and ensuring proper recovery of input VAT where allowed.

## 2. Scope

This policy applies to all Dutch and foreign entities within bunq b.v and bunq holding b.v. that are subject to VAT obligations or have partial VAT recovery rights. It covers:

- Taxable and exempt services;
- Input VAT recovery;
- VAT invoicing and recordkeeping;
- Reverse charge obligations.

## 3. Policy Principles

| Principle                           | What It Means                                                                                                                                                                                                          |
|-------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compliance</b>                   | Full compliance with Dutch VAT law and EU VAT regulations.                                                                                                                                                             |
| <b>Correct VAT Treatment</b>        | We distinguish between taxable and exempt services (e.g. loans vs. consultancy).                                                                                                                                       |
| <b>Input VAT Recovery</b>           | Implement a pro-rata recovery method (pro rata BTW-aftrek) for input VAT, consistent with bunq's mix of exempt and taxable services. Where applicable, allocate overheads using a fair and supportable allocation key. |
| <b>Registration &amp; Reporting</b> | VAT (registration, returns & liabilities) are filed, paid, and reported without delay in all jurisdictions.                                                                                                            |
| <b>Reverse Charge</b>               | Properly apply the reverse charge for intra-EU and international service purchases to avoid underreporting VAT liabilities.                                                                                            |
| <b>Documentation</b>                | VAT invoices and records are kept for at least 7 years.                                                                                                                                                                |

## 4. Governance and Oversight

- VAT matters are overseen by the CFO and managed by the Head of Finance;
- Material VAT issues are reported to the Risk and Audit Committee of the Supervisory Board;
- External advisors are engaged for complex or cross-border matters.

## 5. Reporting and Disclosure

- bunq discloses its VAT obligations in its annual financial statements in line with Dutch GAAP or IFRS.

### 5c Wage tax

#### 1. Purpose

This section of the tax policy governs how bunq manages its Dutch wage tax (loonbelasting) obligations. It aims to ensure accurate withholding, reporting, and payment of wage taxes for all employees, in accordance with the **Dutch Wage Tax Act (Wet op de loonbelasting 1964)** and relevant labor regulations.

#### 2. Scope

This policy applies to all employees, board members, and contractors of [Bank Name] in the Netherlands. It includes:

- Wage tax withholding;
- Social security contributions;
- Payroll administration;
- Employee benefits and reimbursements.

#### 3. Policy Principles

| Principle                   | What It Means                                                                                                                                                                                                          |
|-----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Legal Compliance</b>     | We fully comply with Dutch wage tax legislation, including rules on tax withholding, payroll tax credits, and fringe benefits.                                                                                         |
| <b>Withholding Accuracy</b> | Covers wage tax, national insurance premiums (AOW, ANW, WLZ), employee insurance premiums (WW, WIA), and Health care insurance contributions (Zvw).                                                                    |
| <b>Timely Payments</b>      | Monthly wage tax returns are filed with the Belastingdienst (Dutch Tax Authority) and wage tax amounts are paid on time, in accordance with statutory deadlines.                                                       |
| <b>WKR Compliance</b>       | Application of the Work-Related Costs Scheme (Werkkostenregeling – WKR) is properly managed. Tax-free reimbursements (e.g., for travel, telework, training) and taxable benefits are tracked and reported as required. |

|                           |                                                                                                                                                                               |
|---------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Cross-Border Tax</b>   | We comply with the 30%-ruling and other cross-border tax obligations for expatriate employees. Tax equalization policies are applied where applicable.                        |
| <b>Grants</b>             | We receive WBSO (Wet Bevordering Speur- en Ontwikkelwerk) government grant and are dedicated to fulfilling all legal requirements regarding this grant.                       |
| <b>Outsourced Payroll</b> | If external payroll providers are used, bunq ensures clear contractual arrangements, data protection compliance, and proper oversight of all payroll-related tax obligations. |

#### 4. Roles and Responsibilities

- **Head of People:** Ensures correct payroll setup and coordinates tax withholding and benefit reporting with the payroll outsource party..
- **Head of Finance:** Advises on wage tax rules, monitors changes in legislation, and supports audits or reviews.  
Handles wage tax payments and reconciliations.
- **External Auditors / Advisors:** Periodically review payroll and tax compliance procedures.

#### 5. Risk Management

- Wage tax risks (e.g., misclassification of employees, incorrect tax treatment of bonuses or stock options) are regularly assessed.
- Corrective action is taken promptly when errors or non-compliance are identified.

### 5d. Other Tax Matters and Tax Reporting

#### 1. Purpose

This section of the tax policy governs how bunq manages its compliance with a range of other tax obligations and tax-related regulatory reporting, including **withholding tax**, **financial sector levies**, **transaction taxes**, and **international disclosure obligations** such as **DAC6**, **CESOP**, **CRS**, and **FATCA**.

## 2. Scope

This policy applies to all entities within bunq b.v. and bunq holding b.v. and covers:

- Dividend, interest, and royalty withholding taxes;
- Dutch bank tax (bankenbelasting);
- Insurance premium tax;
- Real estate transfer tax;
- International tax reporting (DAC6, CRS, FATCA);
- Local and sector-specific levies (e.g., resolution levy).

## 3. Policy Framework

### 3.1 Withholding Tax (WHT)

- **Obligations:** bunq complies with Dutch and treaty-based withholding tax obligations on dividends, interest, and royalties.
- **Relief Mechanisms:** Treaty benefits and EU directives are applied only where sufficient documentation and beneficial ownership evidence is in place.
- **Filing and Reporting:** Withholding taxes are declared and remitted accurately and timely to the Belastingdienst.

### 3.2 Financial Sector Taxes

- **Bank Levy:** bunq assesses and pays, if applicable, the annual Dutch bank levy based on its balance sheet total as prescribed by law.
- **Resolution Fund Contributions:** If required, bunq contributes to the Single Resolution Fund (SRF) in line with regulatory assessments.

## 4. International Tax Reporting

### 4.1 DAC6 (EU Mandatory Disclosure)

- **Scope:** All cross-border arrangements are reviewed for potential reporting under the EU Directive on Administrative Cooperation (DAC6).
- **Responsibility:** The finance and legal teams collaborate to identify and report qualifying arrangements to the Dutch Tax Authority within 30 days.

### 4.3 CESOP (Central Electronic System of Payment Information)

- **Scope:** All cross-border payments made to payees in the EU as defined in Regulation (EU) 2020/283 and Directive (EU) 2020/284.

- **Reporting:** Quarterly reports are submitted to the Belastingdienst or international equivalent where applicable.

#### 4.3 CRS (Common Reporting Standard)

- **Due Diligence:** Account holders are subject to CRS classification and due diligence processes.
- **Reporting:** Annual reports are submitted to the Belastingdienst covering reportable accounts and jurisdictions.

#### 4.4 FATCA (Foreign Account Tax Compliance Act)

- **Classification:** bunq complies with U.S. FATCA obligations as a participating financial institution.
- **TIN Collection & Reporting:** U.S. persons are identified, and relevant accounts are reported to the Dutch Tax Authority for onward transmission to the IRS.

#### 4.5. Governance and Controls

- **Finance Department:** Responsible for identifying, assessing, and reporting on these other tax obligations.
- **Legal & Compliance:** Works with Head of Finance to ensure reporting compliance with DAC6, CRS, FATCA, and AML-related tax disclosures.

### 6. Documentation and Retention

All returns, filings, and supporting documentation are retained for the legally required periods. Audit trails and rationale for tax positions are documented and available upon request by regulators.
