

bunq Tax Report

2025

At bunq, we always pay taxes at the standard rates in every country where we operate. We don't use offshore jurisdictions (often called "tax havens") to lower our tax bills — because we believe in doing our fair share, everywhere we do business.

We keep things simple and transparent. bunq operates only within the European Economic Area and Türkiye, with the following organizational structure:

At bunq, we maintain open and constructive relationships with tax authorities, and we work closely with them to ensure full compliance with all applicable regulations. We're committed to transparency and cooperation at every step.

We can also confirm that, during the reporting period, neither bunq nor any of its subsidiaries have been involved in any adjudication or arbitration proceedings related to tax disputes.

Our European branches play an important role by supporting bunq B.V. in providing local IBANs to our users. These branches do not generate revenue themselves. Instead, Corporate Income Tax for these branches is calculated based on a cost-plus model. This approach is fully documented in both our Master and Local Transfer Pricing files, in line with international standards.

We apply the Authorized OECD Approach ("AOA") as outlined in the OECD 2010 Report on the Attribution of Profits to Permanent Establishments.

In Türkiye, bunq Teknoloji is primarily set up to host outsourced support staff and does not generate revenue on its own. Corporate Income Tax for bunq Teknoloji is calculated based on an intercompany agreement, which covers the services provided by the entity to bunq B.V.

Revenue per tax jurisdiction

Presented below is a summary of the largest revenue generating jurisdictions in which bunq operates, and the revenue derived from business activities in those jurisdictions:

	2025	2024
Country	EUR ('000)	EUR ('000)
Netherlands	277 605	355 064
Ireland	79 225	77 330
Total	356 830	432 394

All bunq users across our European markets hold their accounts with bunq B.V. in the Netherlands. This means that all fee and interest income from these users is reported under bunq B.V., no matter where the user is located.

The revenue reported for Ireland reflects the activities of Capitalflow Group DAC. This is a separate legal entity and a subsidiary of bunq B.V., which focuses on lending and related services.

Profit per tax jurisdiction

Presented below is a summary of the profits after tax per jurisdiction in which bunq operates.

	2025	2024
Country	EUR ('000)	EUR ('000)
Netherlands	13 146	56 267
Ireland	8 824	7 226
Other	414	153
Total	22 384	63 646

All bunq users across our European markets hold their accounts with bunq B.V. in the Netherlands. As a result, profit from these users is reported under bunq B.V., regardless of where the user is located.

The profit reported for Ireland reflects the activities of Capitalflow Group DAC, which is a separate legal entity and a subsidiary of bunq B.V., focused on lending and related services.

For our branches in other jurisdictions, profits are calculated using a cost-plus model. This approach ensures that taxes are paid fairly in the countries where the activities are actually performed.

Assets per tax jurisdiction

Presented below is a summary of the assets per jurisdiction in which bunq operates.

	2025	2024
Country	EUR ('000)	EUR ('000)
Netherlands	7 975 499	7 668 426
Ireland	1 074 474	885 890
Other	1 664	1 596
Total	9 051 637	8 555 912

All bunq users across our European markets hold their accounts with bunq B.V. in the Netherlands. This means that deposits from these users — and all assets arising from those deposits — are reported under bunq B.V., no matter where the user is located.

The assets reported under Ireland belong to Capitalflow Group DAC, bunq's local subsidiary. This is also reflected in the standalone 2025 annual report of Capitalflow Group DAC.

Tax per tax jurisdiction

Presented below is a summary of the taxes paid per jurisdiction in which bunq operates.

Corporate income tax expenses:

	2025	2024
Country	EUR ('000)	EUR ('000)
Netherlands	10 863	20 490

Ireland	1 290	1 080
Other	64	126
Total	12 217	21 696

In the Netherlands, bunq paid actual Corporate Income Taxes of €5,799,663 in 2025 (2024: €19,555,902). In 2025, we also used tax deductions from unutilized tax losses, totaling €5,466,000(2024: €10,876,753). The difference between the tax expenses shown in the earlier table and the amounts already paid will be settled in 2026.

In Ireland, actual Corporate Income Taxes paid in 2025 were €1,290,000 (2024: €1,000,938). In 2025, bunq did not apply tax deductions from unutilized tax losses (2024: €76,708).

Under “Other,” we report the taxes paid in our various branches and in Türkiye. This ensures that fair taxes are paid in each jurisdiction where our activities take place.

Value Added Taxes paid/received

	2025	2024
Country	EUR ('000)	EUR ('000)
Netherlands	13 801	5 861
Ireland	500	1 870
Other	155	- 184
Total	14 456	7 547

Social Security paid to tax authorities

	2025	2024
Country	EUR ('000)	EUR ('000)
Netherlands	5 045	3 551
Ireland	887	810
Other	1 568	1 033
Total	7 500	5 394

In the Netherlands, bunq applied for and received WBSO tax credits for research and development activities during the year ended 31 December 2025. The amount received as subsidies was €400,700 (2024: €399,444).

There are no other company-specific tax rulings in place between bunq, its subsidiaries, or its branches and any tax authorities.
